THE NEWS OF THE WEEK.

A Daily Resume of Latest Happenings.

FEBRUARY 6.

The United States quarantine officials have declared that Manila is free from cholera.

Senator Hanna has introduced a bill in the Senate providing for the payment of pensions and bounties to former slaves.

The Republic of Liberia has donated \$25,000 toward the purchase of a steamship to ply direct between America and West Africa. The steamer will be used to carry negro immigrants to Liberia.

The Cuban House of Representatives has asked President Palma to investigate a report that the Cuban flag over the hotel of the Cuban Minister at Madrid had been hauled down by order of the Spanish authorities.

Detectives are said to be lying in wait for Louise, the eloping Crown Princess of Saxony, who is supposed to be hurrying back to Dresden to visit her sick child. The officers have orders to detain the Princess at the border.

Orders have been given for night and day work on vessels in every navy yard at San Francisco, and the Boston, New York and Bangor are being hastily stocked with provisions. The internal trouble in Honduras is said to be the cause of the order.

William Hooper Young, a Mormon, and a grandson of Brigham Young, was placed on trial in New York for the murder of Mrs. Annie Pulitzer. When he appeared in the courtroom he was apparently suffering from collapse and physicians were appointed to examine him.

The Bureau of Navigation, through Admiral Taylor, has suggested that Lieut. Hobson reconsider his resignation and make a trial of his new duties before taking final action. The correspondence relative to the matter shows that Hobson in resigning attached a request that he be permitted to re-enter the service in case of war or emergency.

Efforts to secure an early settlement of the Venezuelan dispute were continued in Washington yesterday, but no result has yet been reached. The allies have been informed of Minister Bowen's willingness to give them preferential treatment for three months. A dispatch from Berlin says disappointment is felt by the representatives of the allies over Mr. Bowen's attitude during conferences with the Ambassadors, where he allows his fighting spirit to overbear his desires for a peaceful settlement.

FEBRUARY 7.

Former United States Senator Henry Lawrence Daves died at his home in Pittsfield, Mass. He was eighty-six years old.

Giv. Beckham yesterday named the members of the State Board of Equalization for the present year. The board will meet February 10.

Forty fishermen are supposed to have lost their lives in the storm which swept over Saginaw Bay. The men were living in shanties on the ice, which was suddenly broken up.

Republican leaders in the Senate have informed the President that it is useless to press the ratification of the Alaskan boundary treaty on account of the strong opposition in the Northwest.

The Advisory Board of the Agricultural Department of Kentucky has approved Commissioner Nall's plan to utilize \$1,200 in gathering specimens of Kentucky's agricultural products to be exhibited at the St. Louis World's Fair.

The Anthracite Coal Strike Commission has finished taking testimony. Five hundred and fifty witnesses were examined and the stenographers took over 9,000 typewritten pages of testimony. The commission adjourned until next Monday, when the arguments by counsel for the parties interested will be opened, lasting the entire week.

When Representatives Brownlow, of Tennessee, and Boring, of Kentucky, called on the President yesterday in the interest of Augustus E. Wilson's candidacy for the Sixth judicial district judgeship Mr. Roosevelt made several inquiries concerning Judge A. M. J. Cochran, of Mayesville, who is said to have given Taylor's endorsement for the place.

The Senate committee to which was referred the nomination of W. D. Crum, colored, as Collector of Customs at Charleston, S. C., passed the case again yesterday, and it is said will probably make no recommendation.

port, favorable or unfavorable, upon it at this session. Senator Mc Laurin, of South Carolina, whose position in the matter was in doubt, has declared his opposition to the appointment.

Richmond P. Hobson says the failure of his application for retirement was due to opposition from Congressman Bankhead, of the Sixth Alabama district, who is a member of the House Committee on Naval Affairs. Hobson says Bankhead's opposition was because of his political interests. Secretary Moody has decided to accept Hobson's resignation, and in doing so will take occasion to record the navy's high appreciation of the naval constructor's services.

The debate on the Statehood Bill in the Senate turned on the question of Mormonism in New Mexico and Arizona. Mr. Dubois, of Idaho, and Mr. Rawlins, of Utah, declared that wherever the Mormon Church exists it takes part in politics. Both speakers asserted that a member of the Mormon Church would not think of seeking public office without previously securing the sanction of the first presidency of the church. Mr. Dubois asserted that the sentiment against church domination in politics is growing stronger in those States where the Mormon Church has branches.

Piqued by the sharp note of Minister Bowen, the allied Powers have instructed their representatives in Washington to take the question of preferential treatment in the Venezuelan affair to President Roosevelt, and if the latter declines to interfere, to allow the matter to go to The Hague. The instructions sent to the Ambassadors in America do not make it clear whether the entire Venezuelan controversy is to be referred to the international tribunal. In order to escape the embarrassment of a turnaround, Secretary Hay will be approached to learn whether the President will arbitrate the point. It is pointed out that Venezuela will consider it an affront if Minister Bowen is not first consulted by the Powers before the President is invited to act in the matter.

FEBRUARY 8.

Secretary Moody yesterday accepted the resignation of Naval Constructor Richard P. Hobson.

In discussing the Ishman Canal question yesterday in the Senate, Mr. Morgan said if the United States continued its present policy war with Columbia would result.

The trade reviews for the week show that business has remained active despite the apparently hopeless congestion of freight traffic. Unusual vigor is noted by jobbers and dealers in building materials despite the fact that delivery orders cannot be guaranteed.

City attorney Stone, of Louisville, and County Attorney Davis, of Woodford county, are preparing to enter a motion before the State Board of Valuation to assess the railroads of Kentucky for franchise taxes for 1903-4-5, and for a certification to the cities, counties, and taxing districts for local taxation.

The trial of Dr. J. C. Alexander, demonstrator of anatomy in an Indianapolis medical college, for body snatching, developed some strong testimony against the accused. The evidence of Cantrell, the chief ghou, was backed up by that of two other negroes, who testified that they had been hired by Dr. Alexander and under his guidance stole several corpses from cemeteries.

The conference committee of the House and Senate failed to reach a final agreement on the Department of Commerce Bill. The provision concerning the bureau to investigate trusts was quickly agreed upon. The hitch came when the Senate conferees suggested that the Interstate Commerce Commission might be transferred to the new department by amending the House bill. The House conferees refused to assent to such a proposition.

The House devoted the whole of yesterday to debate on the Anti-trust Bill. Mr. De Armond, of Missouri, in closing for the Democrats, advocated an amendment empowering the President to modify or suspend any tariff shown to be a cover for a trust. Mr. Littlefield admitted that the bill is only a step in the right direction, and declared that the limitation of the Constitution prevents adequate legislation.

President Roosevelt declined the first.

invitation to the allied Powers to act as arbitrator to the controversy over preferential treatment in the collection of Venezuelan customs, and this point will be referred to the Hague tribunal. Protocols are to be signed at once, and the raising of the blockade at La Guaira and Puerto Cabello will follow. The stand taken by the President is considered a victory for Minister Bowen, whose consent for reference of the matter to Mr. Roosevelt was not asked by the allies.

FEBRUARY 9.

The lockout of the brewery workers at Cincinnati, Covington and Newport, which lasted more than a year, has been settled. The men locked out will all be reinstated. The settlement was affected by the national convention of the United Brewery Workers. The struggle cost the union workers \$180,000.

Republican leaders in the Senate held another conference in the hope of devising means for ending the debate on the Statehood Bill. They are still of the opinion that the only possible compromise measure is one providing for the admission of two States made up from the four territories under discussion.

Crown Princess Louise of Saxony has been refused permission by the royal court to visit her little son, who is very ill. It is also announced that her separation from Giron will not affect the divorce proceedings, and furthermore that the question of allowing her to see her children at any future time will rest entirely with her father-in-law, King George.

Colonial Secretary Chamberlain rebuked a party of Boers, headed by Christian DeWet, for presenting a memorial which he considered insulting and indicating lack of confidence in the colonial and British home Government. The memorial was due to factional differences among the Boers. Chamberlain having given recognition to the faction led by Piet DeWet.

William J. Bryan yesterday declared that he would refuse to attend any banquet to which Grover Cleveland was to be invited. While in Chicago he learned that the Iroquois Club had planned a banquet to which Mr. Cleveland, himself and other Democratic leaders were to be invited. Mr. Bryan asked that his name be stricken from the list, asking: "What need is there of inviting any one else to a banquet at which Grover Cleveland is to be present?"

The operators and soft coal miners, after a long discussion at Indianapolis, have agreed on a wage scale, to rule during the coming year in the competitive district composed of Indiana, Illinois, Ohio and Western Pennsylvania. Each side made concessions. On picket lined coal the men will receive an advance of ten cents a ton for screened lump and six cents for "mine run" tons. On machine mined coal the increase is eight and ten cents for screened lump and six cents for "mine run." The day wages of "inside" and "outside" employees are increased about 12 1/2 per cent.

A remarkable state of affairs exists at Washington regarding the Anti-trust Bill, according to statements made by prominent statesmen to the Associated Press. It is declared that John D. Rockefeller has sent personal telegrams to at least half a dozen Senators urging that the anti-trust legislation "must be stopped."

An attorney for the Standard Oil Company, it is alleged, followed up the telegrams with personal calls. The efforts of Rockefeller are said to be directed mainly against the Nelson publicity clause which was incorporated in the Anti-trust Bill passed by the House yesterday. The bill now goes to the Senate. A Senator who received one of the telegrams threatens to read it in the Senate if there is any indication that Rockefeller's opposition is bearing fruit.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears up the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One minute cough cure is pleasant to take, harmless and good alike for young and old. The Louisville Drug Company, J. D. Biggs manager.

Model Commissaries.

EDITOR NEWS:—

In answer to a certain article in the BIG SANDY NEWS by E. E. Shannon and M. S. Burns, we wish to make the following statements: Shannon and Burns claim that the notes were not executed for county rights, but we claim they were. Post came to our places to give us contracts for selling "The Model Commissary." He had a map of Kentucky and pointed out to us the counties in which we were to sell. He said, "Each county will cost you \$240." We asked him if he would not sell more than one county to a man and he said, "No," but, he said, where two were partners he would give them an extra county, making three counties cost \$480.

In regard to signing a paper stating that Post had furnished everything that he was to furnish, we say that the assertion is absolutely false. We never saw or heard anything of such a paper until we saw the statement by Burns and Shannon.

The statement by Burns and Shannon saying that Post did not sell Carter county rights is false, for we saw a contract between Post and Carter, giving Carter Pendleton county.

Also the statement made that all orders had been filled is untrue, for we made an order last October and sent the money and have not received the goods or money either. We have written for our money and they have refused to return the money or ship the goods.

As Burns and Shannon give the Bank of Louisa as surety for "The Model Commissary Co." against all losses by orders, they will please send check on Bank of Louisa for \$45 payable to L. T. and M. E. Sparks on an order made by them on October 11, 1902.

We are truly sorry that Burns and Shannon bought the notes, for we would hate for them to lose any money, but they made a mistake in buying the notes the same as we did in buying county rights.

We hope they will get their money, but we want the parties who got their money to pay it.

If any one should doubt the statements made in this article, we are ready at any time to make an affidavit to same.

Respectfully,
M. E. SPARKS,
L. T. SPARKS,
M. B. SPARKS.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

THE DRAUGHT BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Draught's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Draught's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. It is always on hand for use in an emergency and saves many expensive calls of a doctor.
Mullins, S. C., March 10, 1901.
I have used The Draught's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for liver and kidney troubles and dyspepsia and other complaints.

Letter from California.

NATIONAL CITY, FEB. 2

Dear friends: When I say friends I mean all those who read the BIG SANDY NEWS, for when we are away from home we feel that those living near our home are friends, hence, the remark, if it offends any of the readers, remember I did not mean you.

As it has been some time since you've had a line from my pen I thought it would be well to remind you that I am still in existence, for I do not want you to forget me. I am not going to give you another spiel about the country and the climate, so don't get nervous; the least we say to those of you who are contented with the country and the climate the better we can call ourselves, "Blessed are the Peacemakers." If the mind is at peace with the surroundings I do not want to disturb the harmony. If I were to tell you that this now is the season of flowers, especially roses, all you girls would want to be here long enough to get a bouquet to wear to a theater or you would at once begin to wish you were somewhere else just then, so while you are having snow and ice there enjoy it and just think what a good time you can have on the ice, while I am away out here smelling orange blossoms and roses, and all the while wishing the Bay would freeze over, or something happen to break the monotony. So, you are all just as much contented with your snow and ice as we are with our flowers and fruit. I am not going to say a word.

This is February 2nd, and when I spoke of it as "Ground Hog Day" to the office force they gave me the horse laugh, saying they never heard of such a day and calling me still a tenderfoot, so please don't say "Ground Hog Day" when you come over here. They laugh at me, however, for a great many things I say and do. I used to take an umbrella out occasionally, but so many people—I might add, with elastic in their necks—would look at me so suspiciously, that I finally tumbled, for you know it never rains here only during January and February, but how was I to know that; and people never use umbrellas for a protection against the sun, as it is not hot enough.

This is the Chinese week of festivities. It is their New Year, and they square themselves with the world. They think if they leave an old debt over that the Evil One will sure get him. They celebrate in great style. Keep incense burning all the time and the odor from it is supposed to keep the Evil One away. The odor is something terrible, and rooms to me would keep anything away. Their music too is destined to keep the bad away. They are very liberal on these occasions and want every one to eat something. They serve tea, candies and nuts which of course no one can eat unless they have a Chinese appetite. Their fireworks on these occasions are very elaborate. They have fire crackers all strung on a rope with a large roman candle now and then and very large ones all thro' the string and this rope is taken up into an upper window and thrown out as the crackers go off. It is simply terrific, can't hear anything, and there that Chinaman stands until two or three o'clock in the morning letting out that rap, rap, rap, and while it seems an immense string of fire. The only good feature I see about a Chinaman is that

he will pay up his debts once a year at least, but I do not see the use of making such a fuss about it. The fuss however is to scare the Devil away for another year. Friends, I beg your pardon, I did not intend saying so much; all I wanted to say was to please some times think of ALICE PETERS.

A Weak Stomach causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach and wards off and overcomes disease. J. B. Taylor, a prominent merchant of Charleston, Tex., says: "I could not eat because of a weak stomach. I lost all strength and run down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol, I concluded to try it. The first bottle benefited me, and after taking four bottles I am fully restored to my usual strength, weight and health." The Louisville Drug Company Dr. J. D. Biggs manager.

Rescued from Suffering and Death by PAINE'S Celery Compound

THE GREAT MEDICINE.

MR. ALFRED BROWN,
A Prominent and Popular Citizen, Says:
"After the Use of Paine's Celery Compound,
I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., D. Sc., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous life giving prescription, which the greatest sufferer may cut off his or her burden of disease and become well, strong, and happy.

It proves, too, that the great medicine maintains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses. Mr. Brown says:—

"I acknowledge with thankfulness and pleasure the fact that I have been cured of my painful illness of eight years' standing by use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find that one of them, at least, would understand my case.

"I was getting worse, and was told I was incurable. I was indeed in a critical condition. I could not go from the house alone, as I was liable to sudden collapse. I tried hospital treatment, but no relief or good results came to me. I could not sleep; anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed firmly into my left side to ease my pains; my feet and hands were cold continually; had inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time.

"After the regular use of Paine's Celery Compound for a time, I am now in the best of health, have good appetite, and can use any kind of food. Thank God I am my old self once more, all through the use of Paine's Celery Compound."

For President in 1904:
JUDGE ALTON B. PARKER,
of New York.

For Circuit Judge:
S. G. KINNEIR.

For Commonwealths Attorney:
JOHN M. WAUGH.

The President offered the Federal Circuit Judgeship to Gen. Basil Duke, of Louisville, Tuesday—he of the uncertain political persuasion. Duke declined. Judge Cochran is now thought to be the President's choice. Sammy Pugh is hanging around with a hungry look, praying that the fatal bolt of electricity may hit him and land him on the District Court bench, dead or alive, in case Judge Cochran is promoted.

Godfrey Hunter, Jr., has been acquitted of the killing of Wm. Fitzgerald, in Guatemala. The contention of ex-Minister Hunter has been that a conspiracy had existed and that it culminated in the affray in which Fitzgerald was killed. The defense was that Hunter and James G. Bailey were walking through the public park in Guatemala when Fitzgerald purposely jostled the former, following it up with a deliberate attack. Young Hunter, it is claimed, drew his revolver and killed Fitzgerald.

Judge Alton B. Parker, Chief Justice of the Supreme Court of New York is the most available man yet mentioned for the Democratic nomination for President in 1904. Briefly stated, he is clean, able, popular, commanding the respect of all who know him. No man has a higher standing in New York, and it is believed he can carry that State. Wm. J. Bryan says he is for him provided he supported the ticket in 1896 and 1900, and there is no longer any doubt of this, if there ever was. Judge Parker is also entirely acceptable to all other factions in New York. A banquet is to be given in his honor April 2nd at Chattanooga, in which the Governors of the thirteen southern states will be invited. It will be the most elaborate affair in the history of the South.

The relative importance of the Big Sandy river is very strongly shown in the report of the Treasury Bureau of Statistics recently issued.

The report says that next in importance to the traffic of the Monongahela and Ohio Rivers is that of the Great Kanawha River, consisting primarily of coal and lumber. During the year 1902 the total tonnage moved through Lock No. 11 on this stream was 977,101 tons. Next in importance is Green River, Kentucky, through Lock No. 1 of which 382,847 tons passed. The Big Sandy River, is credited with 251,511 tons. The Little Kanawha had a total freight tonnage of 69,706 tons. On the Kentucky River, 8 locks, 48,665 tons of freight were shipped, and on the Muskingum River, Lock No. 1, 37,380 tons. Green river has 205 miles of slackwater. Little Kanawha has five locks, Muskingum 11 locks. Big Sandy has only one in operation, and a single lock is of no benefit to the traffic of a river. Study the figures and see the great difference in Big Sandy's favor. The comparison after we get a complete slackwater system can hardly be approximated. The Big Sandy is the most important of all these tributaries.

Smallpox Quarantine Here.—Western Union Telegraph Office.—Case of Sore Affliction.

Dr. J. N. McCormick, State Health officer, was here last Friday and established a strict quarantine, also taking steps to enforce the vaccination laws. He did this after calling a public meeting of the Fiscal Court and the merchants. About 200 cases here was the estimate made by Dr. McCormick after investigation. The disease is of a rather mild type. Business is, of course, almost entirely suspended. The disease is said to have been brought here by one of our lawyers who visited the town of Pollard, a suburb of Ashland, where the disease was so prevalent.

As soon as the quarantine is raised we expect to be placed in direct communication with the outside world by the Western Union Telegraph Company, which has a line ready for operation from this place to a connection at Whitehouse. It is said F. T. D. Wallace, Jr., of Louisa, will be in charge of the office here.

Elbert Arnett, confined in jail, has smallpox. Upon recovery he will be taken to the penitentiary to serve five years for the murder of S. B. Salyer in Magoffin county a year ago. While drunk Arnett stabbed Salyer in the arm, blood poison resulted and Salyer died. The Court of Appeals recently affirmed the verdict. A few days ago Arnett's only child, age two years, got a grain of corn in her wind-pipe and physicians pronounced the case hopeless.

Mr. Kelley, of the C. & O. engineering force, engaged in driving a tunnel at Concord, two miles east of here, was injured by a steam drill that was thrown from its place and struck him over the eye, inflicting a painful wound. Q.

A Thousand Dollars Thrown Away.

W. W. Baker, of Plainview, Neb., writes "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it."

WHITEHOUSE.

Whitehouse has only one case of smallpox. A young man came down from Paintsville with it and is almost well.

Dr. McCormack, of Louisville, came up and had every woman vaccinated and the town of Paintsville quarantined and it seems now like the scourge in this part of this country is under control.

Faris Moore, who has been clerking in the W. H. C. C. Co. store has quit and moved back to Brushy.

U. S. Prince, Bales, Bromley and Fuller, all traveling salesmen, were calling on our merchants Monday.

E. R. Swett, ex-farmer for Langborn and Ricketts here last fall, married Miss Gracie Preston and moved to W. Va., came back last night on a visit.

PIKEVILLE.

Earl Hatcher Drowned.—Negro Rapist Narrowly Escapes Hanging.—No Smallpox.

The jury in the case of Johnson Reed, colored, charged with assault upon Martha Hall, a little white girl, failed to agree upon a verdict. One report says that nine were for hanging and three for a life sentence, while another says all but one favored the death penalty. The crime was committed last October just across the river from Matewan, W. Va. The evidence showed it to have been one of the worst crimes in the history of the county. The little girl was criminally assaulted by the negro while hunting her mother's cow some distance from home. She was found and carried home, where she lingered between life and death for three weeks. The negro was arrested at Kenova. He was fully identified and while in jail at Pikeville made a confession to the jailer and others. He denied everything upon the witness stand. The death sentence will doubtless be inflicted at the next trial.

Attorney W. H. Flannery and W. H. Elliott broke the monotony of the court, as well as its rules, Saturday by engaging in a fight. They were not allowed to finish the combat, but were promptly fined \$10 each for contempt of court. Hon. Roscoe Vanover was presiding at the time.

Early, age 15 years, only son of John H. Hatcher, proprietor of the Williamson House, was drowned at the wharf on Wednesday night of last week by stepping from the steamer Grubbs, which had just landed. More than an hour passed before it was known who the unfortunate boy was, as no one recognized Earl as he went down into the water. Parents of all boys who were away from home at the time were frantic until their sons were found.

At this writing the body of Earl Hatcher has not been found. There has been considerable search made by the citizens here and \$50 reward is offered for the recovery of the body.

Since the tragic fate of Earl, the people have partly awakened to the dangerous and careless habit of allowing their boys to rush pell-mell to the wharf every time a steamer arrives. Though Earl was sent on a mission to the boat, the parents of other boys realize, at last, that their own boys have been in danger of being drowned every time a boat arrives at our wharf. The parents of Earl have the very deepest heartfelt sympathy of the people here during these sad days of their bereavement.

Mrs. Caroline Williamson, who has been away sometime for medical treatment, returned Saturday, improved some, but not yet very strong.

Tom Williamson is constructing a large feed and livery stable on 2nd street back of Williamson house.

There is no smallpox now in Pikeville. There were only three cases in all and they are well now.

The merchants are doing a lively business since the boats have brought so many new goods on the recent tide.

J. P. Roberts, age 35, living two miles above Williamson in Pike county, was killed by a freight train in the Williamson yards a few nights ago.

The yellow flag has been hung to the breeze at Harry Blair's and Will Adams', on Lick. There have been many exposures to smallpox. The peculiar type has so baffled Medical Board, that ruinous delay in quarantine has occurred. As usual the country folks suspect the "commercial idea" has something to do in the matter, and claim that the chicken will come home to roost; arguing that the "rurals" will be too shy of town when they fancy they have been deceived by reticent officials and newspapers.

These foolish country folks stand right up and say that in as much as they help to support Medical Boards and newspapers, that they are entitled to all the information that can be furnished in order that they may be protected in life and health. But you see they do not realize that a whole dozen of eggs might be diverted into other channels.

"I Have Observed That"

Candidates for the State Reformatory at Lexington are multiplying in Louisa.

One year ago today (February 13th) the weather was intensely cold, with ice in the river.

The News is supplying other papers with quite an amount of interesting matter without charge—or credit.

The recent warm weather has knocked that tired feeling out of the hens, and home-grown eggs are fifteen cents a dozen.

Marshal DeRossett is making a good officer. He has intelligence and judgment enough to know what to do, and courage enough to do it.

People occupying the houses between Sullivan's grocery and the blacksmith shop should be "mighty keener" with fire. A spark would start a conflagration.

The first of the annual out-pour of timber has arrived. Every year the cry has been that soon there will be no more timber up Sandy, but there is no perceptible diminution of the supply.

Henry Jenkins is still confined to his room, and mostly to his bed, suffering from a severe form of neuralgia. It is supposed his trouble is due to a fall received in Catlettsburg some time ago.

The report that a horse and buggy were lost in the mud somewhere between Louisa and Busseyville last week is only partially true. The buggy can not be found, but the horse managed to pull itself out.

Secretary of Board of Health McCormick says that a large proportion of the inhabitants of Paintsville were not vaccinated, and just that proportion have smallpox. What are Louisians going to do about it?

The maple buds are swelling, and the blue birds, too, are telling, of a Spring that's now upon her happy way.

But Hicks, the pessimistic, says "Don't be optimistic. Force and snow and storm will have their sway."

It is all right and highly commendable to increase the school fund and thus lengthen the term, and the Council should also make and enforce a truancy law. Also, a curfew law. "Where is my wandering boy tonight?" Ask of the annoyed storekeepers, the disgusted people who go for mail, and the City Marshal. He could, a tale unfold.

There is some talk of an entertainment for the benefit of the school fund. Well and good. Why not try an opera or a musical comedy, or something of that sort? Have something with lots of children in it. This will interest the parents and cause a big attendance. An entertainment of this sort was given at the Masonic Hall years ago which netted one hundred and twenty-five dollars, about three times the usual net proceeds.

The School Proposition.

Various things conspired to make the attendance at the school meeting at the court house last Monday evening rather small, and all the action taken was a request to the soliciting committee to push the canvass as rapidly as possible. Another meeting will be held when necessary and the date will be announced through the News.

The subscription paper is at Conley's store. Some citizens have added their names voluntarily. If you want to do something of real benefit to your community, subscribe to this fund. It is the beginning of an educational awakening, which is about the most needed of anything in this vicinity. Every dollar invested in aiding the movement will doubtless bear good fruit for years to come.

Each year makes greater educational demands upon young men and women who start out in the world. The education necessary to succeed a decade ago will be entirely inadequate ten years hence. There is something seriously wrong with parents who do not want their children to have better educational advantages than they themselves enjoyed.

Notice of Dissolution.

Be it known, that on the 22nd day of January, 1903, the firm of Mary Boggs & Co. mutually dissolved partnership. The firm was composed of Mary Boggs and J. F. Davis. FOOT CUT OFF.

Mrs. John Short, of Fallsburg. Has a Foot Crushed by a Train.

The Ashland Independent gives the following account of a deplorable accident to a woman from this county:

Quite a serious accident occurred Monday evening, in which Mrs. Anna Short, aged 47, wife of John Short, of Fallsburg, Lawrence county, had her right foot crushed by a C. & O. train.

Mrs. Short has been here for a month the guest of her nephew, Milt Elkins. Late last evening Mrs. Short started down to the post office, and on reaching the first crossing found it blocked by a train, and started to crawl under. The train started suddenly and the wheels caught her right foot.

Mrs. Short was removed to the Elkins home and given medical attention, but, on the advice of a physician, she was later taken to the King's Daughters' Hospital. Here it was found necessary to amputate about half of her foot, and the operation was performed by Dr. J. M. Salmon. Mrs. Short rallied from the shock remarkably well.

Mr. Short was at the home of his son-in-law, Frank Crank, at Normal, at the time of the accident. He was soon notified and is now at his wife's bedside. Wm. Shortridge, residing just back of town, is a brother of Mrs. Short.

112 Years Old.

"Aunt" Amy Johnson, a colored woman residing at Ironton, is the oldest woman in southern Ohio, according to her statement of her age. She says she was born near Louisa, Lawrence county, June 11, 1791, and was a slave under the father of Charles McConnell, the Catlettsburg bookstore man, and father of Police Judge McConnell, having nursed "Uncle Charley" when a child.

She came to Ironton in 1865. Mrs. Johnson says she has a clear recollection of the war of 1812. She has been the mother of seventeen children, one of whom, a son, who lives at Delaware, O., and who will be 80 years old his next birthday, being the only one living. Mrs. Johnson gets about among her neighbors and reads the papers, even if she is 112 years of age.—Ex.

Rev. McClung Dead.

Rev. Samuel F. McClung, pastor of the M. E. Church, South, at Catlettsburg, died Saturday afternoon of pneumonia, after an illness of a week. He leaves a wife and several children. The funeral was held there Sunday and the body was taken to the old McClung home in Greenbrier county for burial.

Mr. McClung was well known throughout the Big Sandy Valley, having been associated with our people in the execution of his duties in the service of the M. E. Church, South. He was for many years a Presiding Elder. His age was 44 years. He entered the ministry in 1876. He was a practical and energetic man and led an active life. His death is deplored throughout the conference.

Serious Cutting Affray.

Two Lawrence county young men, Harry Boggs and James Morris, had a difficulty a few days ago at Warnock, in Greenup county in which the latter received a dangerous cut in the right side from a knife in the hands of Boggs. The attending physician has since removed nearly one half of Morris' spleen and his recovery is doubtful. Neither of the men is married. Boggs is a son of "one-armed Jim" and his victim is a son of Richard Morris, both of the Blaine section of this county.

Have Your Measure Taken.

A representative of the custom department of A. J. Brumberg's big clothing store, of Ironton, will be at the Arlington Hotel in Louisa Thursday and Friday of this week to take orders for anything in the clothing line. Suits from \$18 to \$40. All positively made to order.

VESSIE.

"Jimmy" Harless, an aged and respected citizen, is dangerously sick.

Mrs. Ben Davis has been sick for several days.

John Shepherd has moved inside the corporation and elected town Marshal.

Cale Toller, one of the leading cattle men of this part of the state, in trying an experiment in feeding cattle, had the misfortune to lose eight fine steers.

Bob Toller is now happily domiciled in his new house.

John Fannin has moved inside the city limits and is talking of putting up a livery and feed stable. Joe Day, a member of the Silver Side Milling Co., was elected city clerk.

Mr. and Mrs. Dave Esam were the happy recipients of a "dish-washer" a few days ago.

A daughter of Dave Esam's is very sick with spinal trouble.

We are willing to call it absent-mindedness or forgetfulness, but C. T. Miller says different, so we will relate the story and people can judge for themselves.

Lindsey White, a leading farmer here, went to the store a few weeks ago hitched his horse, and after trading, he shouldered his goods which amounted to about one hundred and fifty pounds and carried them home, leaving his horse hitched up at the store. The distance is about one and a half miles. He sent his son after the horse.

Ted Lockwood and G. W. Handley are the only stone masons in town.

V. B. Shortridge says "If the differences between him and Uncle Bill Taylor can not be settled by arbitration, he is going to see it to a finish."

John Belcher and wife, of Ratcliff, visited friends here last week. Select school is progressing nicely under the management of Isaac Cunningham.

Ike Neal, of W. Va., visited his father here last week.

Emery McKinnery has moved from here to Spring Creek.

C. T. Miller says since he has been City Atty that he has prosecuted and compromised more cases and collected more fines than any man that ever held the office. He is certainly a hustler.

Willie Queen, who has been in Ohio for several months, returned last week looking fine.

Joe Barrett has returned from Indiana and says "There is no place like home." Feet.

A new stock of the latest books have just come in at Conley's store. All the \$1.50 editions at \$1.25.

OUR NEIGHBORS.

W. Addington, a miner, was killed by falling slate in No 8 mine, Winslow, Boyd county.

Frank H. Tyree, formerly of Grayson and Huntington, now a Secret Service guard of President Roosevelt, is dangerously ill at Washington.

David Ankrum, aged 73, was married at Ironton Monday to Mrs. Elizabeth Rebecca Davidson, aged 72. She is his third wife. They attended school together 60 years ago.

Upon the recommendation of John W. Langley, Miss Ailie Combs will be appointed postmaster at Hindman, Knott county, to succeed F. B. Allen, removed on the report of a postoffice inspector.

About the time Grayson thought she was rid of the smallpox scourge, a baby was born to the wife of Marshal George Davis with a well developed case of smallpox. The mother had the disease some time ago.

The sixth death at the Confederate Home at Pewee Valley occurred last Saturday. It was that of John B. Patton, of Cynthiana, age 83. He was a member of Shawhan's Cavalry battalion, under Gen. Humphrey Marshall.

Congressman Hughes has landed A. Blaine York, son of Senator John Y. York, of Wayne county, as a special agent of the agricultural Division of the Census Office. His field will comprise Kentucky, and pay him about \$200 per month.

When George Bowling's safe was robbed at Lockwood several months ago the burglars took \$200 that Mrs. Robt. Strother had placed there for safe keeping. She sued Bowling for the amount, but the case was decided against her a few days ago.

L. S. Perkins, of Washington, D. C., special Examiner for the pension bureau is in Huntington to succeed Wayne W. Cordell, who returns to Washington. His territory includes eight counties of West Virginia, four of Virginia and nine of Kentucky.

Salysville, Ky.—There are 200 well-developed cases of smallpox in this county. It seems to be of a very mild type, with few exceptions. The local Board of Health has declared a quarantine against each family infected, and has ordered yellow flags put up. There is no vaccination going on.

Capt. Washington Williamson, 86, one of the "old guard" steamboatmen, died of rheumatism at Portsmouth. He followed the river nearly all his life, in recent years serving as a pilot, though an invalid. He was the first to operate steam propellers on the Ohio and Erie Canal in Southern Ohio. He was born at Fort Gay, W. Va.

James F. Sowards, formerly of Greenup, who was murdered at Los Angeles, Cal., two weeks ago, was engaged in the real estate and money-lending business there. He had loaned \$200 to Martin E. Cox, taking diamonds as security. When the money became due, Mr. Sowards called at Cox's room and was murdered and robbed. Cox is a bad man from Marion, Ind. He has not yet been captured.

Carl Berner, age 16, son of a Catlettsburg shoe merchant, and Miss Jessie Kelley, age 15, only daughter of a saloonist on 13th street, Ashland, eloped to Ohio last week and were married. They went on to Clifton Forge, Va., and there all trace of them was lost. The girl is a Catholic and the boy a Methodist. The parents were all shocked severely, but are now ready to forgive if they can only find the children.

The H. Krish Wholesale Dry-goods & Notions Co., of Catlettsburg, with a capital stock of \$50,000 has been incorporated by H. Krish, retired wholesale grocer; ex Sheriff R. A. Field, Catlettsburg, of the Field Wholesale Grocery Company; Cy M. Preston, formerly of Paintsville, now of Crum, Preston & Co., Catlettsburg wholesale grocers; Joan C. C. Mayo, the Paintville capitalist. They will occupy the entire three floors of the Russell block, corner of Main and Center streets, and expect to be ready for business by March 1st.

A Huntington paper says John K. Stratton, of Pikeville, Ky., registered at a hotel there Sunday morning and then sat down in a chair in a corner of the lobby and went to sleep. He slept there until Monday morning before any effort was made to arouse him, when the hotel people concluded they would better wake him. All efforts failed. A physician was called and the man was carried to his room. Thus comfortably "fixed" he slept tighter than ever, and it was not until Wednesday morning that he awoke. He is said to have been much amused over the excitement he had innocently caused, and told stories about having slept a week at a stretch.

MATTRESSES, \$1.65.—We are selling mattresses at \$1.65 each, the same kind that others are asking \$1.75 to \$2.25 for.

BUSSEYVILLE.

Frank Thompson, son of Uncle John Thompson, is to be married at once. Miss Robinson is the bride elect; and from the frequent visits of Elwood it is generally thought that another wedding is pending in the near future. Last Saturday at the home of Lefe Moore, his eldest daughter Miss Gipsy, aged 17, was married to W. H. Thompson, aged 46, Rev. Miller officiating. This is the third time the matrimonial harness has been fitted upon the groom, while first for the bride, and it is hoped that many years of happiness and prosperity will be theirs. The usual spring moving has begun. Jesse Thompson came back to his old farm on Blaine from Reuben. John Thompson has moved to the farm of F. R. Bussey and will be on the farm for the residue of the season. Mont Holt is arranging to move to Ashland within a short time. T. J. Pigg is erecting a nice dwelling house on the lot recently purchased of W. J. Pigg; which when finished will be quite an addition to our town. Mr. Chapman, of Illinois, is still with us, and will remain for some time yet, and if "cupid" continues to get in his good work, we may gain a good citizen or lose a fine young lady. John Workman has purchased a nice lot of timber of W. J. Pigg and is moving his saw mill to it. After which he will move it to Trap Branch. Our town is considerably alarmed over smallpox, as a traveler who is reported to be a victim of the disease, passed here recently. Sunday while crossing the branch, greatly swollen by recent rains, Miss Sue Holt lost her footing and fell into the turbid waters, and had it not been for the heroic efforts of nearby friends who extricated her, she would doubtless have been swept away before the rolling tide. Mrs. Mollie Holt, of Walbridge, visited home folks Sunday. John B. Carter was here Tuesday looking for cattle, sheep and hogs. His labors were not in vain. Thos. J. Burchett, of Deephole, was here this week enroute to Martin, Johnson and Pike counties, looking for 100 head of cattle. Buckskin Doss.

FREE! A Large Range

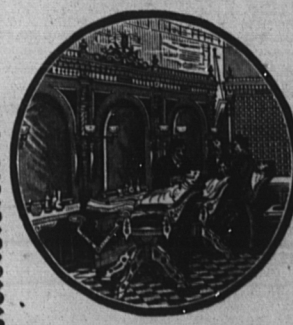

now on exhibition at W. N. Sullivan's store to be given away to some purchaser of Kenton Baking Powders. A ticket is given with each can, and the one holding the same number as that held at Bank of Louisa in a sealed envelope, gets the stove free. This envelope was sealed before it came here and no one knows the number. The envelope will be opened when all baking powders are sold. The number will then be advertised in the NEWS. It is absolutely fair to all.

W. N. SULLIVAN, Louisa, Kentucky.

I WONDER

How many men who read this have provided themselves and their loved ones with a competency in old age, by an Endowment policy in The Washington Life Insurance Co.? The U. S. Census report says that out of one thousand men having arrived at the age of 65 years, and spending forty years of that time in active business, only three had saved over Five Thousand Dollars each. Why not break that record and provide yourself with a policy in the best Company in the world. See

ENGAGED.

The Wayne quarterly meeting of Freewill Baptists convened at Mary Davis school house, on Saturday before the first Sunday in February. Called to order by clerk, Bro. Adams was chosen Moderator. Visiting brethren of other churches invited to a seat with us. Letters from various churches called for and read. Proceeded to business in usual form. There were five ministers present. We had a pleasant conference. Owing to the inclemency of the weather there was not a large congregation out on Sunday. There are six or seven churches in Wayne conference, and a membership of about 160. May God bless the churches and may she be as the mighty tree planted by the water's edge, flourish and prosper.

NAAMAN BORDERS.

Mr. Hanbury, the recently returned Arctic explorer who has been studying the Eskimos, says they have no religion—not even a belief in a Supreme Being.

THE EASY PILL.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, consumption and inactive liver, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a devoted tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; vigor and cheerfulness soon disappear when the kidneys and bladder are out of order or diseased.

Small Farm Wanted.

30 to 40 acres, with cottage and orchard. Not less than 3 acres bottom. Within 2 or 3 miles of railroad or river. Apply to Big Sandy News.

A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst form of croup. Mrs. Cordier, of Mannington, Ky., writes "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle
